

Air 1 serves me by playing gospel music and a different perspective on the news. I believe if Air 1 is displaced by an LPFM the community will not have the benefit of alternate news reporting and music. The service provided by Air 1 gives the public opportunity to learn about the christian perspective and have the opportunity to call the station during times of discouragement and need and receive encouragement and help in many different aspects of their lives. Please don't displace Air 1 it's vital to the community, all generations listen to the music, messages and news they provide.
